

**Welcome to 2024!** More horizons to explore, mountains to climb, soil to till & seeds to plant. In support of all this ... a Weekly Learning Series. Brought to you by:  
**The Illinois Co-occurring Center for Excellence (ICOCE)**  
in partnership with **Prevention First & Heartland Alliance Health**  
**Midwest Harm Reduction Institute**

**The ICOCE Project** was initiated to assist & support IDHS/SUPR licensed organizations integrate Substance Use & Mental Illness Treatment. **The Goal:** to ensure individuals living in Illinois with co-occurring events of substance use & mental illness receive support & care from a single provider's services. Ideally, from a single staff or team who address both events simultaneously as interrelated, and provide care & support accordingly with what we know works best. Or, via a merged, collaborative partnership between organizations to integrate these services seamlessly. **The 2024 ICOCE Weekly Learning Support Series** lends itself to supporting organizational & individual efforts, with evolving awareness, knowledge, skills and practice toward this end.

We've brought together accomplished wonderful presenters with working knowledge of integrating the many & necessary aspects woven into this work. We hope you'll be able to join in as many sessions as possible. The link to all sessions is through Zoom at:
